### Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

## Independent Auditors' Report

No. 00039/3.0341/AU.1/05/0323-1/1/III/2025

The Shareholders, Board of Commissioners and Directors

PT Ecocare Indo Pasifik Tbk (formerly PT Indocare Pacific)

### Opinion

We have audited the consolidated financial statements of PT Ecocare Indo Pasifik Tbk (formerly PT Indocare Pacific) and its Subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as December 31, 2024, and their consolidated financial performance and cash flows for the year then ended in accordance with Indonesian Financial Accounting Standards.

### Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, are the most significant in our audit of the current period consolidated financial statements. They are presented in the context of our audit of the consolidated financial statements as a whole, and in formulating our opinion on the related consolidated financial statements, we do not express a separate opinion on these key audit matters.

*Cadangan Kerugian Penurunan Nilai (CKPN) piutang usaha*

Lihat Catatan 2i - Informasi Kebijakan Akuntansi Material atas Instrumen Keuangan, Catatan 3b - Penggunaan Estimasi, Pertimbangan dan Asumsi Manajemen atas Pertimbangan Cadangan Kerugian Kredit Ekspektasian dan Catatan 6 - Piutang Usaha Pihak Ketiga.

Pada tanggal 31 Desember 2024, jumlah piutang usaha bersih sebesar Rp 39.201.715.774 (setelah cadangan Kerugian Kredit Ekspektasian (KKE) sebesar Rp 3.001.471.701), yang merupakan 18,25% dari jumlah aset Grup. Grup menerapkan pendekatan yang disederhanakan untuk menghitung cadangan kerugian kredit ekspektasian yang disyaratkan oleh PSAK No. 109, yang memperbolehkan penerapan cadangan kerugian kredit ekspektasian sepanjang umurnya untuk seluruh piutang usaha. Untuk mengukur cadangan kerugian kredit ekspektasian tersebut, piutang usaha dikelompokkan berdasarkan karakteristik risiko kredit yang sejenis dan pola tunggakan atau gagal bayar.

Kami fokus pada area ini karena jumlah tercatat yang signifikan dari piutang usaha dan cadangan KKE terkait yang terbentuk memerlukan penggunaan pertimbangan manajemen yang signifikan dan melibatkan penggunaan estimasi.

*Bagaimana audit kami merespon Hal Audit Utama*

Kami telah melakukan prosedur audit berikut untuk merespon hal audit utama ini:

- Kami telah melaksanakan prosedur untuk memahami dan mengevaluasi desain dan implementasi dari pengendalian internal Grup yang relevan sehubungan dengan cadangan kerugian kredit ekspektasian atas piutang usaha.
- Kami mengevaluasi keakuratan dan kelengkapan data yang digunakan dalam model kerugian kredit ekspektasian dan memeriksa keakuratan matematis dari perhitungan tersebut.
- Kami mengevaluasi kewajaran asumsi utama (yaitu definisi gagal bayar, pengelompokan berbagai segmen pelanggan, karakteristik risiko kredit, dan informasi perkiraan masa depan) yang digunakan oleh manajemen untuk mengestimasi cadangan kerugian kredit ekspektasian.
- Kami meninjau kecukupan pengungkapan dalam laporan keuangan konsolidasian Grup sesuai dengan standar akuntansi yang berlaku.

*Estimasi masa manfaat aset tetap*

Lihat Catatan 2m - Informasi Kebijakan Akuntansi Material atas Aset Tetap, Catatan 3b - Penggunaan Estimasi, Pertimbangan dan Asumsi Manajemen atas Estimasi Masa Manfaat Aset Tetap dan Catatan 10 - Aset Tetap.

*Allowance for Expected Credit Losses (ECL) on trade accounts receivable*

Refer to Note 2i - Material Accounting Policy Information on Financial Instruments, Note 3b - Management Use of Estimates, Judgments and Assumptions on Allowance for Expected Credit Losses and Note 6 - Trade Accounts Receivable from Third Parties.

As of December 31, 2024, the balance of net trade accounts receivable amounted to Rp 39,201,715,774 (after allowance for Expected Credit Losses (ECL) of Rp 3,001,471,701), which represents 18.25% of the Group's total assets. The Group applies the simplified approach to provide for expected credit losses prescribed by PSAK No. 109, which permits the use of the lifetime expected loss provision for all trade accounts receivable. To measure the expected credit losses, trade accounts receivable have been grouped based on shared credit risk characteristics and the days past due.

We focused on this area due to the significant carrying amount of the trade accounts receivable and the calculation of allowance for ECL involves the use of significant judgment and estimates.

*How our audit responds to Key Audit Matter*

We have performed the following audit procedures to address this key audit matter:

- We performed procedures to understand and evaluate the design and implementation of the Group's relevant internal controls in respect of the allowance for expected credit losses of trade accounts receivable.
- We evaluated the accuracy and completeness of data used in the expected credit loss model and checked mathematical accuracy of the calculation.
- We evaluated the reasonableness of key assumptions (i.e. definition of default, grouping of various customer segments, credit risk characteristics, and forward looking information) used by management to estimate the allowance for expected credit losses.
- We reviewed the adequacy of disclosure in the Group's consolidated financial statements in accordance with applicable accounting standards.

*Estimating useful lives of property and equipment*

Refer to Note 2m - Material Accounting Policy Information on Property and Equipment, Note 3b - Management Use of Estimates, Judgments and Assumptions on Estimated Useful Lives of Property and Equipment and Note 10 - Property and Equipment.

Pada tanggal 31 Desember 2024, aset tetap Grup adalah sebesar Rp 79.915.255.562 yang mewakili 37,20% dari jumlah aset Grup. Seperti yang diungkapkan pada Catatan 3b pada laporan keuangan konsolidasian, Grup menelaah estimasi masa manfaat aset tetap secara berkala atau pada saat diperlukan jika estimasi berbeda dari perkiraan sebelumnya yang disebabkan karena pemakaian, usang secara teknis atau komersial serta keterbatasan hak atau pembatasan lainnya terhadap penggunaan aset. Peninjauan masa manfaat aset tetap sangat kompleks dan membutuhkan pertimbangan yang signifikan karena penentuan perkiraan masa manfaat mempertimbangkan sejumlah faktor dan asumsi, termasuk penilaian kolektif atas praktik industri dan pengalaman dengan aset serupa.

#### *Bagaimana audit kami merespon Hal Audit Utama*

Kami telah melakukan prosedur audit berikut untuk merespon hal audit utama ini:

- Kami memperoleh pemahaman, mengevaluasi desain dan menguji efektivitas operasional pengendalian internal atas proses pengestimasian masa manfaat aset tetap yang dilakukan oleh Grup.
- Kami menilai apakah terdapat sumber informasi potensial atas informasi yang bertentangan dengan membandingkan estimasi masa manfaat aset tetap dengan perusahaan lain dalam industri pewangi ruangan, sabun, jasa pengelola gedung dan jasa pembersih.

#### **Informasi Lain**

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam Laporan Tahunan, tetapi tidak mencantumkan laporan keuangan konsolidasian dan laporan auditor kami. Laporan Tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain jika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca Laporan Tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

At December 31, 2024, the Group's property and equipment amounted to Rp 79,915,255,562 which represents 37.20% of the Group's total assets. As disclosed in Note 3b to the consolidated financial statements, the Group reviews its estimates of useful lives periodically or as and when needed if expectations differ from previous estimates due to changes in expectation of physical wear and tear, technical or commercial obsolescence and legal or other limitations on the continuing use of the assets. The review of useful lives of property and equipment was complex and required significant judgment because the determination of the estimated useful lives considers a number of factors and assumptions, including the collective assessment of industry practice, and experience with similar assets.

#### *How our audit responds to Key Audit Matter*

We have performed the following audit procedures to address this key audit matter:

- We obtained an understanding, evaluated the design and tested the operating effectiveness of internal controls over the Group's process of estimating the useful lives of property and equipment.
- We assessed whether there were any potential sources of contrary information by performing benchmarking analysis on the estimates useful live property and equipment against other companies within trade in air freshener, soap, building management services and cleaning services industry.

#### **Other Information**

Management is responsible for the other information. The other information consists of information contained in the Annual Report, but does not include the consolidated financial statements and our auditors' report. The Annual Report are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

**Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian**

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

**Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian**

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.

**Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan penggunaan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit Grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**2. Material Accounting Policy Information**

**a. Basis of Consolidated Financial Statements Preparation and Measurement**

The consolidated financial statements of the Group have been prepared and presented in accordance with Indonesian Financial Accounting Standards, which comprise the Statements of Financial Accounting Standards (PSAK) and Interpretations of Financial Accounting Standards (ISAK) issued by the Financial Accounting Standards Board of the Institute of Indonesia Chartered Accountants (DSAK IAI) and the Board of Sharia Accounting Standard of Institute of Indonesia Chartered Accountants (DSAS IAI) and Financial Accounting applicable Capital Market regulations, among others Regulation No. VIII.G.7 concerning Presentation and Disclosure of Financial Statements of Issuer or Public Companies.

Dasar pengukuran laporan keuangan konsolidasian ini adalah konsep biaya perolehan, kecuali beberapa akun tertentu disusun berdasarkan pengukuran lain, sebagaimana diuraikan dalam kebijakan akuntansi masing-masing akun tersebut. Laporan keuangan konsolidasian ini disusun dengan metode akrual, kecuali laporan arus kas konsolidasian.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi, dan pendanaan.

Kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan konsolidasian untuk tahun yang berakhir 31 Desember 2024 adalah konsisten dengan kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan konsolidasian untuk tahun yang berakhir 31 Desember 2023.

#### b. Prinsip Konsolidasi

Laporan keuangan konsolidasian meliputi laporan keuangan Perusahaan dan entitas-entitas yang dikendalikan oleh Perusahaan dan Entitas Anak (Grup). Pengendalian diperoleh apabila Grup memiliki seluruh hal berikut ini:

- kekuasaan atas *investee*;
- eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan *investee*; dan
- kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi jumlah imbal hasil Grup.

Pengkonsolidasian entitas anak dimulai pada saat Grup memperoleh pengendalian atas entitas anak dan berakhir pada saat Grup kehilangan pengendalian atas entitas anak. Secara khusus, penghasilan dan beban entitas anak yang diakuisisi atau dilepaskan selama tahun berjalan termasuk dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian sejak tanggal Grup memperoleh pengendalian sampai dengan tanggal Grup kehilangan pengendalian atas entitas anak.

The measurement basis used is the historical cost, except for certain accounts which are measured on the bases described in the related accounting policies. The consolidated financial statements, except for the consolidated statements of cash flows, are prepared under the accrual basis of accounting.

The consolidated statements of cash flows are prepared using the direct method with classifications of cash flows into operating, investing, and financing activities.

The preparation of the consolidated financial statements for the year ended December 31, 2024 are consistent with those adopted in the preparation of the consolidated financial statements for the year ended December 31, 2023.

#### b. Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries (the Group). Control is achieved when the Group has all the following:

- power over the *investee*;
- is exposed, or has rights, to variable returns from its involvement with the *investee*; and
- the ability to use its power to affect its returns.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Seluruh aset dan liabilitas, ekuitas, penghasilan, beban dan arus kas dalam intra kelompok usaha terkait dengan transaksi antar entitas dalam Grup dieliminasi secara penuh dalam laporan keuangan konsolidasian.

Laba rugi dan setiap komponen penghasilan komprehensif lain diatribusikan kepada pemilik Perusahaan dan kepentingan nonpengendali (KNP) meskipun hal tersebut mengakibatkan KNP memiliki saldo defisit.

KNP disajikan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan dalam ekuitas pada laporan posisi keuangan konsolidasian, terpisah dari bagian yang dapat diatribusikan kepada pemilik Perusahaan.

Transaksi dengan KNP yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Selisih antara nilai wajar imbalan yang dialihkan dengan bagian relatif atas nilai tercatat aset bersih entitas anak yang diakuisisi dicatat di ekuitas. Keuntungan atau kerugian dari pelepasan kepada KNP juga dicatat di ekuitas.

**c. Kombinasi Bisnis**

***Entitas Tidak Sepengendali***

Kombinasi bisnis, kecuali kombinasi bisnis entitas sepengendali, dicatat dengan menggunakan metode akuisisi. Biaya perolehan dari sebuah akuisisi diukur pada nilai agregat imbalan yang dialihkan, diukur pada nilai wajar pada tanggal akuisisi dan jumlah setiap KNP pada pihak yang diakuisisi. Untuk setiap kombinasi bisnis, pihak pengakuisisi mengukur KNP pada entitas yang diakuisisi pada nilai wajar atau sebesar proporsi kepemilikan KNP atas aset neto yang teridentifikasi dari entitas yang diakuisisi.

Ketika melakukan akuisisi atas sebuah bisnis, Grup mengklasifikasikan dan menentukan aset keuangan yang diperoleh dan liabilitas keuangan yang diambil alih berdasarkan pada persyaratan kontraktual, kondisi ekonomi dan kondisi terkait lain yang ada pada tanggal akuisisi.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interest (NCI) even if this results in the NCI having a deficit balance.

NCI are presented in the consolidated statements of profit or loss and other comprehensive income and under the equity section of the consolidated statements of financial position, respectively, separately from the corresponding portion attributable to owners of the Company.

Transactions with NCI that do not result in loss of control are accounted for as equity transactions. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to NCI are also recorded in equity.

**c. Business Combination**

***Among Entities Not Under Common Control***

Business combinations, except business combination among entities under common control, are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any NCI in the acquiree. For each business combination, the acquirer measures the NCI in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

When the Group acquires a business, it assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as of the acquisition date.

Dalam suatu kombinasi bisnis yang dilakukan secara bertahap, pada tanggal akuisisi pihak pengakuisisi mengukur kembali nilai wajar kepentingan ekuitas yang dimiliki sebelumnya pada pihak yang diakuisisi dan mengakui keuntungan atau kerugian yang dihasilkan dalam laba rugi.

Pada tanggal akuisisi, *goodwill* awalnya diukur pada harga perolehan yang merupakan selisih lebih nilai agregat dari imbalan yang dialihkan dan jumlah yang diakui untuk KNP atas aset bersih teridentifikasi yang diperoleh dan liabilitas yang diambil alih. Jika nilai agregat tersebut lebih kecil dari nilai wajar aset bersih entitas anak yang diakuisisi, selisih tersebut diakui dalam laba rugi.

Setelah pengakuan awal, *goodwill* diukur pada jumlah tercatat dikurangi akumulasi kerugian penurunan nilai. Untuk tujuan uji penurunan nilai, *goodwill* yang diperoleh dari suatu kombinasi bisnis, sejak tanggal akuisisi, dialokasikan kepada setiap Unit Penghasil Kas ("UPK") dari Perusahaan dan/atau entitas anak yang diharapkan akan menerima manfaat dari sinergi kombinasi tersebut, terlepas dari apakah aset atau liabilitas lain dari pihak yang diakuisisi dialokasikan ke UPK tersebut.

Jika *goodwill* telah dialokasikan pada suatu UPK dan operasi tertentu atas UPK tersebut dihentikan, maka *goodwill* yang diasosiasikan dengan operasi yang dihentikan tersebut termasuk dalam jumlah tercatat operasi tersebut ketika menentukan keuntungan atau kerugian dari pelepasan. *Goodwill* yang dilepaskan tersebut diukur berdasarkan nilai relatif operasi yang dihentikan dan porsi UPK yang ditahan.

#### d. Penjabaran Mata Uang Asing

##### *Mata Uang Fungsional dan Pelaporan*

Akun-akun yang tercakup dalam laporan keuangan konsolidasian Grup diukur menggunakan mata uang dari lingkungan ekonomi utama dimana Grup beroperasi (mata uang fungsional).

Laporan keuangan konsolidasian disajikan dalam Rupiah, yang merupakan mata uang fungsional dan mata uang penyajian Grup.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

At acquisition date, goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group and/or its subsidiaries' cash-generating units ("CGU") that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquired are assigned to those CGUs.

Where goodwill forms part of a CGU and part of the operation within that CGU is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

#### d. Foreign Currency Translation

##### *Functional and Reporting Currencies*

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the functional currency).

The consolidated financial statements are presented in Rupiah which is the Group's functional and presentation currency.

**Transaksi dan Saldo**

Transaksi dalam mata uang asing dijabarkan kedalam mata uang fungsional menggunakan kurs pada tanggal transaksi. Keuntungan atau kerugian selisih kurs yang timbul dari penyelesaian transaksi dan dari penjabaran pada kurs akhir tahun atas aset dan liabilitas moneter dalam mata uang asing diakui dalam laba rugi.

Aset nonmoneter yang diukur pada nilai wajar dijabarkan menggunakan kurs pada tanggal nilai wajar ditentukan. Selisih penjabaran akun ekuitas dan akun nonmoneter serupa yang diukur pada nilai wajar diakui dalam laba rugi.

#### **Financial Liabilities Measured at Amortized Cost**

Financial liabilities at amortized cost is measured at initial amount minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount.

As of December 31, 2024 and 2023, the Group's short-term bank loans, trade accounts payable, other accounts payable, accrued expenses, long-term bank loan and consumer financing liabilities were included in this category.

### ***Offsetting of Financial Instruments***

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is a currently enforceable right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

***Reklasifikasi Instrumen Keuangan***

Sesuai dengan ketentuan PSAK No. 109, Instrumen Keuangan, Grup mereklasifikasi seluruh aset keuangan dalam kategori yang terpengaruh, jika dan hanya jika, Grup mengubah model bisnis untuk pengelolaan aset keuangan tersebut. Sedangkan, liabilitas keuangan tidak direklasifikasi.

***Cadangan Kerugian Kredit Ekspektasian Aset Keuangan***

Grup selalu mengakui kerugian kredit ekspektasian (KKE) sepanjang umur untuk piutang usaha. Kerugian kredit ekspektasian atas aset keuangan diestimasi menggunakan pendekatan tingkat kerugian berdasarkan pengalaman kerugian kredit historis Grup, disesuaikan dengan kondisi ekonomi umum dan penilaian baik atas kondisi kini maupun perkiraan masa depan pada tanggal pelaporan, termasuk nilai waktu atas uang jika tepat.

Untuk semua instrumen keuangan lainnya, Grup mengakui KKE sepanjang umur ketika telah ada peningkatan risiko kredit yang signifikan sejak pengakuan awal. Jika sebaliknya, risiko kredit pada instrumen keuangan tidak meningkat secara signifikan sejak pengakuan awal, Grup mengukur penyisihan kerugian untuk instrumen keuangan tersebut sejumlah KKE 12 (dua belas) bulan.

Penilaian apakah KKE sepanjang umur harus diakui didasarkan pada peningkatan signifikan dalam kemungkinan terjadinya atau pada risiko gagal bayar sejak pengakuan awal dan bukan didasarkan bukti aset keuangan yang mengalami kerugian kredit pada tanggal pelaporan atau kejadian gagal bayar sebenarnya.

KKE sepanjang umur merupakan kerugian kredit ekspektasian yang timbul dari seluruh kemungkinan peristiwa gagal bayar selama perkiraan umur instrumen keuangan. Sebaliknya, KKE 12 (dua belas) bulan mewakili porsi KKE sepanjang umur yang timbul dari peristiwa gagal bayar pada instrumen keuangan yang mungkin terjadi dalam 12 (dua belas) bulan setelah tanggal pelaporan.

***Reclassifications of Financial Instruments***

In accordance with PSAK No. 109, Financial Instruments, the Group reclassifies its financial assets when, and only when, the Group changes its business model for managing financial assets. While, any financial liabilities shall not be reclassified.

***Allowance for Expected Credit Losses of Financial Assets***

The Group always recognizes lifetime expected credit losses (ECL) for trade accounts receivable. The expected credit losses on these financial assets are estimated using loss rate approach based on the Group's historical credit loss experience, adjusted for general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 (twelve) month ECL.

The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12 (twelve) month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 (twelve) months after the reporting date.

***Penghentian Pengakuan Aset dan Liabilitas Keuangan***

**1. Aset Keuangan**

Aset keuangan (atau bagian dari aset keuangan atau kelompok aset keuangan serupa) dihentikan pengakuannya jika:

- a. Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir;
- b. Grup tetap mempertahankan hak untuk menerima arus kas dari aset keuangan tersebut, namun juga menanggung liabilitas kontraktual untuk membayar arus kas yang diterima tersebut kepada satu atau lebih pihak penerima melalui suatu kesepakatan; atau
- c. Grup telah mengalihkan hak kontraktual untuk menerima arus kas dari aset keuangan dan (i) telah secara substansial mengalihkan seluruh risiko dan manfaat atas aset keuangan, atau (ii) secara substansial tidak mengalihkan atau tidak memiliki seluruh risiko dan manfaat atas aset keuangan, namun telah mengalihkan pengendalian atas aset keuangan tersebut.

**2. Liabilitas Keuangan**

Liabilitas keuangan dihentikan pengakuannya jika liabilitas keuangan tersebut dilepaskan, dibatalkan, atau telah kadaluarsa.

**j. Pengukuran Nilai Wajar**

Pengukuran nilai wajar didasarkan pada asumsi bahwa transaksi untuk menjual aset atau mengalihkan liabilitas akan terjadi:

- di pasar utama untuk aset atau liabilitas tersebut atau;
- jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Grup harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan pada tanggal pengukuran.

***Derecognition of Financial Assets and Liabilities***

**1. Financial Assets**

Financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- a. The rights to receive cash flows from the asset have expired;
- b. The Group retains the right to receive cash flows from the asset, but has assumed a contractual obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- c. The Group has transferred its rights to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

**2. Financial Liabilities**

A financial liability is derecognized when the obligation under the contract is discharged, cancelled or has expired.

**j. Fair Value Measurement**

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability or;
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The Group must have access to the principal or the most advantageous market at the measurement date.

Nilai wajar aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomik dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya, atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Ketika Grup menggunakan teknik penilaian, maka Grup memaksimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Seluruh aset dan liabilitas yang mana nilai wajar aset atau liabilitas tersebut diukur atau diungkapkan, dikategorikan dalam hirarki nilai wajar sebagai berikut:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik;
- Level 2 - teknik penilaian dimana level input terendah yang signifikan terhadap pengukuran nilai wajar dapat diobservasi, baik secara langsung maupun tidak langsung;
- Level 3 - teknik penilaian dimana level input terendah yang signifikan terhadap pengukuran nilai wajar tidak dapat diobservasi.

Untuk aset dan liabilitas yang diukur pada nilai wajar secara berulang dalam laporan keuangan konsolidasian, maka Grup menentukan apakah telah terjadi transfer di antara level hirarki dengan menilai kembali pengkategorian level nilai wajar pada setiap akhir periode pelaporan.

#### **k. Persediaan**

Persediaan dinyatakan berdasarkan biaya atau nilai realisasi bersih, mana yang lebih rendah. Biaya persediaan ditentukan berdasarkan metode rata-rata tertimbang.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When the Group uses valuation techniques, it maximizes the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed are categorized within the fair value hierarchy as follows:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether there are transfers between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

#### **k. Inventories**

Inventories are stated at cost or net realizable value, whichever is lower. Cost is determined using the weighted average method.

**I. Sukuk**

***Sukuk yang diukur pada nilai wajar melalui laba rugi***

Investasi pada sukuk yang diukur pada nilai wajar melalui laba rugi pada awalnya diakui sebesar biaya perolehan, tidak termasuk biaya transaksi.

**m. Aset Tetap**

***Kepemilikan Langsung***

Aset tetap dinyatakan berdasarkan biaya perolehan, tetapi tidak termasuk biaya perawatan sehari-hari, dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai, jika ada.

Biaya perolehan awal aset tetap meliputi harga perolehan, termasuk bea impor dan pajak pembelian yang tidak boleh dikreditkan dan biaya-biaya yang dapat diatribusikan secara langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan sesuai dengan tujuan penggunaan yang ditetapkan.

Beban-beban yang timbul setelah aset tetap digunakan, seperti beban perbaikan dan pemeliharaan, dibebankan ke laba rugi pada saat terjadinya. Apabila beban-beban tersebut menimbulkan peningkatan manfaat ekonomis di masa datang dari penggunaan aset tetap tersebut yang dapat melebihi kinerja normalnya, maka beban-beban tersebut dikapitalisasi sebagai tambahan biaya perolehan aset tetap.

Penyusutan dihitung berdasarkan metode garis lurus selama masa manfaat aset tetap sebagai berikut:

|                                                           |      |
|-----------------------------------------------------------|------|
| Bangunan/ <i>Building</i>                                 | 20   |
| Kendaraan/ <i>Vehicles</i>                                | 4-8  |
| Inventaris kantor/ <i>Office equipment</i>                | 4    |
| Peralatan dan perlengkapan/ <i>Furniture and fixtures</i> | 4-8  |
| Barang pajangan/ <i>Display items</i>                     | 4    |
| Renovasi bangunan sewa/ <i>Leasehold improvement</i>      | 1-10 |

**I. Sukuk**

***Sukuk measured at fair value through profit or loss***

Investments in sukuk classified at fair value through profit or loss are initially recognized at cost, excluding transaction costs.

**m. Property and Equipment**

***Direct Acquisitions***

Property and equipment are carried at cost, excluding day to day servicing, less accumulated depreciation and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties and taxes and any directly attributable costs in bringing the property and equipment to its working condition and location for its intended use.

Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance costs, are normally charged to profit or loss in the period such costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of the property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation is computed based on a straight-line basis over the property and equipment's useful lives as follows:

| Tahun/Years                                               |      |
|-----------------------------------------------------------|------|
| Bangunan/ <i>Building</i>                                 | 20   |
| Kendaraan/ <i>Vehicles</i>                                | 4-8  |
| Inventaris kantor/ <i>Office equipment</i>                | 4    |
| Peralatan dan perlengkapan/ <i>Furniture and fixtures</i> | 4-8  |
| Barang pajangan/ <i>Display items</i>                     | 4    |
| Renovasi bangunan sewa/ <i>Leasehold improvement</i>      | 1-10 |

Nilai tercatat aset tetap ditelaah kembali dan dilakukan penurunan nilai apabila terdapat peristiwa atau perubahan kondisi tertentu yang mengindikasikan nilai tercatat tersebut tidak dapat dipulihkan sepenuhnya.

Dalam setiap inspeksi yang signifikan, biaya inspeksi diakui dalam jumlah tercatat aset tetap sebagai suatu penggantian apabila memenuhi kriteria pengakuan. Biaya inspeksi signifikan yang dikapitalisasi tersebut diamortisasi selama periode sampai dengan saat inspeksi signifikan berikutnya.

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian pengakuan aset tetap diakui dalam laba rugi pada tahun terjadinya penghentian pengakuan.

Nilai residu, umur manfaat, serta metode penyusutan ditelaah setiap akhir tahun dan dilakukan penyesuaian apabila hasil telaah berbeda dengan estimasi sebelumnya.

**n. Aset Takberwujud**

***Perangkat Lunak***

Aset takberwujud merupakan biaya perolehan perangkat lunak komputer yang meliputi biaya langsung yang berkaitan dengan persiapan aset yang ditujukan untuk digunakan dan diamortisasi menggunakan metode garis lurus selama 8 (delapan) tahun.

Taksiran masa manfaat dan metode amortisasi direviu minimum setiap akhir tahun buku, dan pengaruh dari setiap perubahan estimasi akuntansi yang diterapkan secara prospektif.

**o. Transaksi Sewa**

Grup menerapkan PSAK No. 116 yang mensyaratkan pengakuan liabilitas sewa sehubungan dengan sewa yang sebelumnya diklasifikasikan sebagai 'sewa operasi'.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

When each major inspection is performed, its cost is recognized in the carrying amount of the item of property and equipment as a replacement if the recognition criteria are satisfied. Such major inspection is capitalized and amortized over the next major inspection activity.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gains or loss arising from de-recognition of property and equipment is included in profit or loss in the year the item is derecognized.

The assets' residual values, if any, useful lives and depreciation method is reviewed and adjusted if appropriate, at end of each financial year end.

**n. Intangible Assets**

***Software***

Intangible assets represent the cost of acquiring computer software which includes direct costs related to the preparation of assets intended for use and amortized using the straight-line method over 8 (eight) years.

The estimated useful lives and amortization methods are reviewed at a minimum at each financial year end, and the effect of any changes in accounting estimates is applied prospectively.

**o. Lease Transactions**

The Group has applied PSAK No. 116 which set the requirement for the recognition of lease liabilities in relation to leases which had been previously classified as 'operating lease'.

*Sebagai penyewa*

Pada tanggal permulaan kontrak, Grup menilai apakah kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Grup harus menilai apakah:

- Grup memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan
- Grup memiliki hak untuk mengarahkan penggunaan aset identifikasian. Grup memiliki hak ini ketika Grup memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya dan:
  1. Grup memiliki hak untuk mengoperasikan aset;
  2. Grup telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Pada tanggal awal dimulainya kontrak atau pada tanggal penilaian kembali atas kontrak yang mengandung sebuah komponen sewa, Grup mengalokasikan imbalan dalam kontrak ke masing-masing komponen sewa berdasarkan harga tersendiri relatif dari komponen sewa dan harga tersendiri agregat dari komponen nonsewa.

Pada tanggal permulaan sewa, Grup mengakui aset hak-guna dan liabilitas sewa. Aset hak-guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan.

Aset hak-guna kemudian disusutkan menggunakan metode garis lurus dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

*As lessee*

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group shall assess whether:

- The Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are the most relevant to changing how and for what purpose the asset is used are predetermined:
  1. The Group has the right to operate the asset;
  2. The Group has designed the asset in a way that predetermined how and for what purpose it will be used.

At the inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices and the aggregate stand-alone price of the non-lease components.

The Group recognizes a right-of-use assets and a lease liability at the lease commencement date. The right-of-use assets are initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payment made at or before the commencement date.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Grup menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa yang termasuk dalam pengukuran liabilitas sewa meliputi pembayaran tetap, termasuk pembayaran tetap secara substansi.

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Jika sewa mengalihkan kepemilikan aset pendasar kepada Grup pada akhir masa sewa atau jika biaya perolehan aset hak-guna merefleksikan Grup akan mengeksekusi opsi beli, maka Grup menyusutkan aset hak-guna dari tanggal permulaan hingga akhir umur manfaat aset pendasar. Jika tidak, maka Grup menyusutkan aset hak-guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

#### Sewa jangka pendek

Grup memutuskan untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk sewa jangka-pendek yang memiliki masa sewa 12 (dua belas) bulan atau kurang.

Grup mengakui pembayaran sewa atas sewa tersebut sebagai beban dengan dasar garis lurus selama masa sewa.

#### **p. Penurunan Nilai Aset Non-Keuangan**

Pada setiap akhir periode pelaporan, Grup menelaah apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat uji penurunan nilai aset perlu dilakukan, maka Grup membuat estimasi jumlah terpulihkan aset tersebut.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise - fixed payments, including in-substance fixed payments.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use assets reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use assets from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

#### Short-term leases

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 (twelve) months or less.

The Group recognizes the leases payments associated with these leases as an expense on a straight-line basis over the lease term.

#### **p. Impairment of Non-Financial Assets**

The Group assesses at each reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount.

Jika nilai tercatat aset lebih besar daripada nilai terpulihkannya, maka aset tersebut dinyatakan mengalami penurunan nilai dan rugi penurunan nilai diakui dalam laba rugi. Dalam menghitung nilai pakai, estimasi arus kas masa depan bersih didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang mencerminkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset.

Penelaahan dilakukan pada akhir setiap periode pelaporan untuk mengetahui apakah terdapat indikasi bahwa rugi penurunan nilai aset yang telah diakui dalam periode sebelumnya mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka Grup mengestimasi jumlah terpulihkan aset tersebut.

Kerugian penurunan nilai yang diakui dalam periode sebelumnya akan dipulihkan apabila nilai tercatat aset tidak melebihi jumlah terpulihkannya maupun nilai tercatat, neto setelah penyusutan, seandainya tidak ada rugi penurunan nilai yang telah diakui untuk aset tersebut pada periode-periode sebelumnya. Setelah pemulihan tersebut, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan nilai tercatat aset yang direvisi, dikurangi nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

**q. Distribusi Dividen**

Distribusi dividen kepada pemegang saham Perusahaan diakui sebagai liabilitas dalam laporan keuangan konsolidasian dalam periode saat dividen tersebut disetujui oleh pemegang saham Perusahaan.

**r. Laba per Saham**

Laba per saham dasar dihitung dengan membagi laba bersih yang dapat diatribusikan kepada pemilik entitas induk perusahaan dengan jumlah rata-rata tertimbang saham yang beredar pada periode yang bersangkutan.

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and impairment losses are recognized in profit or loss. In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses recognized for an asset may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

A previously recognized impairment loss for an asset is reversed in profit or loss to the extent that the carrying amount of the assets does not exceed its recoverable amount nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior periods. After such a reversal, the depreciation charge on the said asset is adjusted in future periods to allocate the assets' revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

**q. Dividend Distribution**

Dividend distribution to the Company's shareholders is recognized as a liability in the consolidated financial statements in the period in which the dividends are approved by the Company's shareholders.

**r. Earnings per Share**

Earnings per share are computed by dividing net income attributable to owners of the parent company by the weighted average number of shares outstanding during the period.

**s. Pengakuan Pendapatan dan Beban**

Grup menerapkan PSAK No. 115, yang mensyaratkan pengakuan pendapatan harus memenuhi 5 (lima) langkah analisa sebagai berikut:

1. Identifikasi kontrak dengan pelanggan.
2. Identifikasi kewajiban pelaksanaan dalam kontrak. Kewajiban pelaksanaan merupakan janji-janji dalam kontrak untuk menyerahkan barang atau jasa yang memiliki karakteristik berbeda ke pelanggan.
3. Penetapan harga transaksi. Harga transaksi merupakan jumlah imbalan yang berhak diperoleh suatu entitas sebagai kompensasi atas diserahkan barang atau jasa yang dijanjikan ke pelanggan. Jika imbalan yang dijanjikan di kontrak mengandung suatu jumlah yang bersifat variabel, maka Grup membuat estimasi jumlah imbalan tersebut sebesar jumlah yang diharapkan berhak diterima atas diserahkan barang atau jasa yang dijanjikan ke pelanggan dikurangi dengan estimasi jumlah jaminan kinerja jasa yang akan dibayarkan selama periode kontrak.
4. Alokasi harga transaksi ke setiap kewajiban pelaksanaan dengan menggunakan dasar harga jual berdiri sendiri relatif dari setiap barang atau jasa berbeda yang dijanjikan di kontrak. Ketika tidak dapat diamati secara langsung, harga jual berdiri sendiri relatif diperkirakan berdasarkan biaya yang diharapkan ditambah marjin.
5. Pengakuan pendapatan Ketika kewajiban pelaksanaan telah dipenuhi dengan menyerahkan barang atau jasa yang dijanjikan ke pelanggan (ketika pelanggan telah memiliki pengendalian atas barang atau jasa tersebut).

Kewajiban pelaksanaan dapat dipenuhi dengan 2 cara, yakni:

- a. Suatu titik waktu (umumnya janji untuk menyerahkan barang ke pelanggan); atau

**s. Revenue and Expense Recognition**

The Group has applied PSAK No. 115, which requires revenue recognition to fulfill 5 (five) steps of assessment:

1. Identify contract(s) with a customer.
2. Identify the performance obligations in the contract. Performance obligations are promises in a contract to transfer to a customer goods or services that are distinct.
3. Determine the transaction price. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer. If the consideration promised in a contract includes a variable amount, the Group estimates the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods or services to a customer less the estimated amount of service level guarantee which will be paid during the contract period.
4. Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods or services promised in the contract. Where these are not directly observable, the relative stand-alone selling price are estimated based on expected cost plus a margin.
5. Recognize revenue when performance obligation is satisfied by transferring a promised goods or services to a customer (which is when the customer obtains control of that goods or services).

A performance obligation may be satisfied at the following:

- a. A point in time (typically for promises to transfer goods to a customer); or

- b. Suatu periode waktu (umumnya janji untuk menyerahkan jasa ke (pelanggan). Untuk kewajiban pelaksanaan yang dipenuhi dalam suatu periode waktu, Grup memilih ukuran penyelesaian yang sesuai untuk penentuan jumlah pendapatan yang harus diakui karena telah terpenuhinya kewajiban pelaksanaan.

Pembayaran harga transaksi berbeda untuk setiap kontrak. Aset kontrak diakui ketika jumlah penerimaan dari pelanggan kurang dari saldo kewajiban pelaksanaan yang telah dipenuhi. Kewajiban kontrak diakui ketika jumlah penerimaan dari pelanggan lebih dari saldo kewajiban pelaksanaan yang telah dipenuhi. Aset kontrak disajikan dalam "Aset kontrak" dan liabilitas kontrak disajikan dalam "Liabilitas kontrak".

Pendapatan jasa kebersihan dan pengendalian hama diakui ketika jasa telah diberikan kepada pelanggan.

Pendapatan jasa kebersihan dari suatu kontrak jasa kebersihan diakui suatu periode waktu diakui secara proporsional selama masa kontrak.

Penjualan produk pembersih dan pewangi ruangan diakui pada saat barang telah diserahkan kepada pelanggan.

Penghasilan bunga dan beban bunga dari instrumen keuangan diakui dalam laba rugi secara akrual menggunakan metode suku bunga efektif.

Beban diakui pada saat terjadinya (*accrual basis*).

- b. Over time (typically for promises to transfer services to a customer). For a performance obligation satisfied over time, the Group selects an appropriate measure of progress to determine the amount of revenue that should be recognized as the performance obligation is satisfied.

Payment of the transaction price is different for each contract. A contract asset is recognized once the consideration paid by customer is less than the balance of performance obligation which has been satisfied. A contract liability is recognized once the consideration paid by customer is more than the balance of performance obligation which has been satisfied. Contract assets are presented under "Contract assets" and contract liabilities are presented under "Contract liabilities".

Revenue from cleaning and pest control services is recognized when the services have been rendered to customers.

Cleaning service revenue from a cleaning service contract is recognized over a period of time proportionately over the contract period.

Sales of cleaning products and air freshener is recognized when the goods are delivered to the customers.

Interest income and interest expense for all financial instruments are recognized in profit or loss on accrual basis using the effective interest rate method.

Expenses are recognized when they are incurred (*accrual basis*).

**t. Imbalan Kerja**

***Liabilitas Imbalan Kerja Jangka Panjang***

Liabilitas imbalan kerja jangka panjang merupakan imbalan pasca-kerja manfaat pasti yang dibentuk tanpa pendanaan khusus dan didasarkan pada masa kerja dan jumlah penghasilan karyawan pada saat pensiun yang dihitung menggunakan metode *Projected Unit Credit*. Pengukuran kembali liabilitas imbalan pasti langsung diakui dalam laporan posisi keuangan konsolidasian dan penghasilan komprehensif lain pada periode terjadinya dan tidak akan direklasifikasi ke laba rugi, namun menjadi bagian dari saldo laba. Biaya liabilitas imbalan pasti lainnya terkait dengan program imbalan pasti diakui dalam laba rugi.

Presiden Republik Indonesia telah menetapkan Peraturan Pemerintah Pengganti Undang-Undang No. 2 Tahun 2022 tentang Cipta Kerja (Perppu Cipta Kerja 2/2022) pada tanggal 30 Desember 2022 yang merupakan pelaksanaan dari Putusan MK No. 91/PUU-XVIII/2020. Dengan berlakunya Perppu ini, UU No. 11/2020 tentang Cipta Kerja dicabut dan dinyatakan tidak berlaku. Perppu Cipta Kerja 2/2022 telah ditetapkan menjadi Undang-Undang pada tanggal 31 Maret 2023 berdasarkan Undang-Undang No. 6 Tahun 2023.

**u. Pajak Penghasilan**

***Pajak Kini***

Pajak kini ditentukan berdasarkan laba kena pajak dalam periode yang bersangkutan yang dihitung berdasarkan tarif pajak yang berlaku.

***Pajak Tangguhan***

Pajak tangguhan diakui sebagai liabilitas jika terdapat perbedaan temporer kena pajak yang timbul dari perbedaan antara dasar pengenaan pajak aset dan liabilitas dengan jumlah tercatatnya pada tanggal pelaporan.

Aset pajak tangguhan diakui untuk seluruh perbedaan temporer yang dapat dikurangkan dan rugi fiskal yang dapat dikompensasikan.

**t. Employee Benefits**

***Long-term Employee Benefits Liability***

Long-term employee benefits liability represents post-employment benefits, unfunded defined-benefit plans which amounts are determined based on years of service and salaries of the employees at the time of pension and calculated using the Projected Unit Credit method. Remeasurement is reflected immediately in the consolidated statements of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur and not to be reclassified to profit or loss but reflected immediately in retained earnings. All other costs related to the defined-benefit plan are recognized in profit or loss.

The President of the Republic of Indonesia has enacted Government Regulation in Lieu of Law No. 2 of 2022 on Job Creation (Perppu on Job Creation 2/2022) on December 30, 2022 which is the implementation of Constitutional Court Decision No. 91/PUU-XVIII/2020. With the enactment of this Perppu, Law No. 11/2020 on Job Creation is revoked and declared invalid. Perppu on Job Creation 2/2022 has been enacted into Law on March 31, 2023 based on Law No. 6 of 2023.

**u. Income Tax**

***Current Tax***

Current tax expense is determined based on the taxable income for the period computed using prevailing tax rates.

***Deferred Tax***

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences and the carry forward benefit of any unused tax losses.

Aset pajak tangguhan diakui dan direviu pada setiap tanggal pelaporan atau diturunkan jumlah tercatatnya, sepanjang kemungkinan besar laba kena pajak tersedia untuk pemanfaatan perbedaan temporer yang dapat dikurangkan dan rugi fiskal yang dapat dikompensasikan.

Aset dan liabilitas pajak tangguhan diukur dengan menggunakan tarif pajak yang diharapkan berlaku ketika aset dipulihkan atau liabilitas diselesaikan, berdasarkan tarif pajak (atau peraturan pajak) yang telah berlaku atau secara substantif telah berlaku pada tanggal pelaporan.

Aset pajak tangguhan dan liabilitas pajak tangguhan saling hapus jika dan hanya jika, terdapat hak yang dipaksakan secara hukum untuk melakukan saling hapus aset pajak kini terhadap liabilitas pajak kini dan pajak tangguhan tersebut terkait dengan entitas kena pajak yang sama dan dikenakan oleh otoritas perpajakan yang sama.

#### **v. Informasi Segmen**

Informasi segmen disusun sesuai dengan kebijakan akuntansi yang dianut dalam penyusunan dan penyajian laporan keuangan konsolidasian.

Segmen operasi diidentifikasi berdasarkan laporan internal komponen-komponen Grup yang secara berkala dilaporkan kepada pengambil keputusan operasional dalam rangka alokasi sumber daya ke dalam segmen dan penilaian kinerja Grup.

### **3. Penggunaan Estimasi, Pertimbangan dan Asumsi Manajemen**

Dalam penerapan kebijakan akuntansi Grup, seperti yang diungkapkan dalam Catatan 2 pada laporan keuangan konsolidasian, manajemen harus membuat estimasi, pertimbangan dan asumsi atas nilai tercatat aset dan liabilitas yang tidak tersedia oleh sumber-sumber lain. Estimasi dan asumsi tersebut, berdasarkan pengalaman historis dan faktor lain yang dipertimbangkan relevan.

Deferred tax assets are recognized and reviewed at each reporting date and reduced to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward benefit of unused tax losses can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (or tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if and only if, a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **v. Segment Information**

Operating segments are prepared using the accounting policies adopted for preparing and presenting the consolidated financial statements.

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performances.

### **3. Management Use of Estimates, Judgments and Assumptions**

In the application of the Group's accounting policies, which are disclosed in Note 2 to the consolidated financial statements, management is required to make estimates, judgments, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and assumptions are based on historical experience and other factors that are considered to be relevant.

Manajemen berkeyakinan bahwa pengungkapan berikut telah mencakup ikhtisar estimasi, pertimbangan dan asumsi signifikan yang dibuat oleh manajemen, yang berpengaruh terhadap jumlah-jumlah yang dilaporkan serta pengungkapan dalam laporan keuangan konsolidasian.

#### **Pertimbangan**

Pertimbangan-pertimbangan berikut dibuat oleh manajemen dalam proses penerapan kebijakan akuntansi Grup yang memiliki dampak yang paling signifikan terhadap jumlah-jumlah yang diakui dalam laporan keuangan konsolidasian:

**a. Klasifikasi Aset Keuangan dan Liabilitas Keuangan**

Grup menentukan klasifikasi aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan menilai apakah aset dan liabilitas tersebut memenuhi kriteria yang ditetapkan dalam PSAK No. 109. Aset keuangan dan liabilitas keuangan dicatat sesuai dengan kebijakan akuntansi Grup sebagaimana diungkapkan dalam Catatan 2.

**b. Cadangan Kerugian Kredit Ekspektasian**

Grup menerapkan pendekatan yang disederhanakan dalam menghitung kerugian kredit ekspektasian untuk piutang usaha. Oleh karena itu, Grup tidak menelusuri perubahan risiko kredit, melainkan mengakui penyisihan kerugian berdasarkan kerugian kredit ekspektasian sepanjang umurnya pada setiap tanggal pelaporan.

Untuk pendekatan umum, pada setiap tanggal laporan posisi keuangan, Grup menilai apakah risiko kredit atas instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal. Ketika melakukan penilaian tersebut, Grup mempertimbangkan perubahan risiko gagal bayar yang terjadi selama umur instrumen keuangan. upaya berlebihan. Dalam melakukan penilaian tersebut, Grup membandingkan risiko gagal bayar yang terjadi pada tanggal pelaporan dengan risiko gagal bayar pada saat pengakuan awal, serta mempertimbangkan informasi, termasuk informasi masa lalu, kondisi saat ini, dan informasi bersifat perkiraan masa depan (*forward-looking*), yang wajar dan didukung yang tersedia tanpa biaya atau upaya berlebihan.

Management believes that the following represent a summary of the significant estimates, judgments, and assumptions made that affected certain reported amounts and disclosures in the consolidated financial statements.

#### **Judgments**

The following judgments are made by management in the process of applying the Group's accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

**a. Classification of Financial Assets and Liabilities**

The Group determines the classifications of certain assets and liabilities as financial assets and liabilities by judging if they meet the criteria set forth in PSAK No. 109. Accordingly, the financial assets and liabilities are accounted for in accordance with the Group's accounting policies disclosed in Note 2.

**b. Allowance for Expected Credit Losses**

The Group applies the simplified approach in calculating expected credit losses for trade accounts receivable. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime expected credit losses at each reporting date.

For general approach, at each financial position reporting date, the Group shall assess whether the credit risk of a financial instrument has increased significantly since initial recognition. When making the assessment, the Group shall use the change in the risk of a default over the expected life of the financial instrument. To make that assessment, the Group shall compare the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, including that which is forward-looking, that is available without undue cost or effort.

Grup mengukur cadangan kerugian sepanjang umurnya, jika risiko kredit atas instrumen keuangan tersebut telah meningkat secara signifikan sejak pengakuan awal, jika tidak, maka Grup mengukur cadangan kerugian untuk instrumen keuangan tersebut sejumlah kerugian kredit ekspektasian 12 (dua belas) bulan. Suatu evaluasi yang bertujuan untuk mengidentifikasi jumlah cadangan kerugian ekspektasian yang harus dibentuk, dilakukan secara berkala pada setiap periode pelaporan. Oleh karena itu, saat dan besaran jumlah cadangan kerugian ekspektasian yang tercatat pada setiap periode dapat berbeda tergantung pada pertimbangan atas informasi yang tersedia atau berlaku pada saat itu.

The Group shall measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition, otherwise, the Group shall measure the loss allowance for that financial instrument at an amount equal to 12 (twelve) month expected credit losses. Evaluation of financial assets to determine the allowance for expected loss to be provided is performed periodically in each reporting period. Therefore, the timing and amount of allowance for expected credit loss recorded at each period might differ based on the judgments and estimates that are available or valid at each period.

Nilai tercatat aset keuangan Grup yang diukur pada biaya perolehan diamortisasi pada tanggal 31 Desember 2024 dan 2023 adalah sebagai berikut:

The carrying values of the Group's financial assets measured at amortized cost as of December 31, 2024 and 2023 were as follows:

**c. Lease**

**Grup Sebagai Penyewa**

**Group as Lessee**

Grup telah menandatangani sejumlah perjanjian sewa gedung. Grup menentukan bahwa sewa tersebut memenuhi kriteria pengakuan dan pengukuran aset hak-guna dan liabilitas sewa sesuai dengan PSAK No. 116, Sewa.

The Group has entered into several building lease agreements. The Group has determined that those leases meet the criteria for recognition and measurement of right-of-use assets and lease liabilities in accordance with PSAK No. 116, Leases.

**d. Pajak Penghasilan**

**d. Income Taxes**

Pertimbangan yang signifikan dibutuhkan untuk menentukan jumlah pajak penghasilan. Terdapat sejumlah transaksi dan perhitungan yang menimbulkan ketidakpastian penentuan jumlah pajak penghasilan karena interpretasi atas peraturan pajak yang berbeda.

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain due to different interpretation of tax regulations.

Jika hasil pemeriksaan pajak berbeda dengan jumlah yang sebelumnya telah dibukukan, maka selisih tersebut akan berdampak terhadap aset dan liabilitas pajak kini dan tangguhan dalam periode dimana hasil pemeriksaan tersebut terjadi.

Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will have an impact on the current and deferred income tax assets and liabilities in the period in which such determination is made.

***Estimasi dan Asumsi***

Asumsi utama mengenai masa depan dan sumber utama lain dalam mengestimasi ketidakpastian pada tanggal pelaporan yang mempunyai risiko signifikan yang dapat menyebabkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam periode berikutnya diungkapkan di bawah ini. Grup mendasarkan asumsi dan estimasi pada parameter yang tersedia saat laporan keuangan konsolidasian disusun.

***Estimates and Assumptions***

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are disclosed below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared.

Kondisi yang ada dan asumsi mengenai perkembangan masa depan dapat berubah karena perubahan situasi pasar yang berada di luar kendali Grup. Perubahan tersebut tercermin dalam asumsi ketika keadaan tersebut terjadi:

Existing circumstances and assumptions about future developments may change due to market changes on circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur:

**a. Nilai Wajar Aset Keuangan dan Liabilitas Keuangan**

**a. Fair Value of Financial Assets and Liabilities**

Standar Akuntansi Keuangan di Indonesia mensyaratkan pengukuran aset keuangan dan liabilitas keuangan tertentu pada nilai wajarnya, dan penyajian ini mengharuskan penggunaan estimasi. Komponen pengukuran nilai wajar yang signifikan ditentukan berdasarkan bukti-bukti obyektif yang dapat diverifikasi (seperti nilai tukar, suku bunga), sedangkan saat dan besaran perubahan nilai wajar dapat menjadi berbeda karena penggunaan metode penilaian yang berbeda.

Indonesian Financial Accounting Standards require measurement of certain financial assets and liabilities at fair values, and the disclosure requires the use of estimates. Significant component of fair value measurement is determined based on verifiable objective evidence (i.e. foreign exchange rate, interest rate), while timing and amount of changes in fair value might differ due to different valuation method used.

Pada tanggal 31 Desember 2024 dan 2023, nilai wajar aset dan liabilitas keuangan diungkapkan pada Catatan 19.

As of December 31, 2024 and 2023, the fair value of Group's financial assets and liabilities are set out in Note 19.

**b. Estimasi Masa Manfaat Aset Tetap**

**b. Estimated Useful Lives of Property and Equipment**

Masa manfaat dari masing-masing aset tetap Grup diestimasi berdasarkan jangka waktu aset tersebut diharapkan tersedia untuk digunakan. Estimasi tersebut didasarkan pada penilaian kolektif berdasarkan bidang usaha yang sama dan pengalaman dengan aset sejenis. Estimasi masa manfaat setiap aset ditelaah secara berkala dan diperbarui jika estimasi berbeda dari perkiraan sebelumnya yang disebabkan karena pemakaian, usang secara teknis atau komersial serta keterbatasan hak atau pembatasan lainnya terhadap penggunaan aset.

The useful life of each item of the Group's property and equipment are estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of similar business and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset.

Dengan demikian, hasil operasi di masa mendatang mungkin dapat terpengaruh secara signifikan oleh perubahan dalam jumlah dan waktu terjadinya biaya karena perubahan yang disebabkan oleh faktor-faktor yang disebutkan di atas. Penurunan estimasi masa manfaat ekonomis setiap aset tetap akan menyebabkan kenaikan beban penyusutan dan penurunan nilai tercatat aset tetap.

Nilai tercatat aset tetap Grup pada tanggal 31 Desember 2024 dan 2023 masing-masing sebesar Rp 79.915.255.562 dan Rp 53.661.416.313 (Catatan 10).

**c. Penurunan Nilai Aset Takberwujud**

Penentuan nilai pakai aset takberwujud membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut (UPK) serta tingkat diskonto yang tepat untuk menghitung nilai kini.

Manajemen berkeyakinan bahwa asumsi-asumsi yang digunakan dalam estimasi nilai pakai dalam laporan keuangan adalah tepat dan wajar, namun demikian, perubahan signifikan dalam asumsi-asumsi tersebut dapat berdampak signifikan pada jumlah nilai terpulihkan dan jumlah kerugian penurunan nilai yang terjadi mungkin berdampak material pada hasil operasi Grup.

Nilai tercatat aset takberwujud Grup pada tanggal 31 Desember 2024 dan 2023 adalah masing-masing sebesar Rp 529.125.000 dan Rp 653.625.000 (Catatan 11).

**d. Penurunan Nilai Aset Non-Keuangan**

Penelaahan atas penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai aset tertentu. Penentuan nilai wajar aset membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut. Perubahan signifikan dalam asumsi-asumsi yang digunakan untuk menentukan nilai wajar dapat berdampak signifikan pada nilai terpulihkan dan jumlah kerugian penurunan nilai yang terjadi mungkin berdampak material pada hasil operasi Grup.

It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any item of property and equipment would increase the recorded depreciation and decrease the carrying values of these assets.

The carrying value of the Group's property and equipment as of December 31, 2024 and 2023 amounted to Rp 79,915,255,562 and Rp 53,661,416,313, respectively (Note 10).

**c. Impairment of Intangible Assets**

Determining the value in use of an intangible asset requires estimating the cash flows expected to be generated from the continued use and ultimate disposal of the asset (CGU) and an appropriate discount rate to calculate the present value.

Management believes that the assumptions used in estimating the value in use in the financial statements are appropriate and reasonable, however, significant changes in these assumptions could have a significant impact on the recoverable amount and the amount of impairment losses incurred may have a material impact on the Group's results of operations.

The carrying amount of the Group's intangible assets as of December 31, 2024 and 2023 amounted to Rp 529,125,000 and Rp 653,625,000, respectively (Note 11).

**d. Impairment of Non-Financial Assets**

Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets. Any significant changes in the assumptions used in determining the fair value may materially affect the assessment of recoverable values and any resulting impairment loss could have a material impact on results of operations.

**e. Imbalan Kerja Jangka Panjang**

**e. Long-term Employee Benefits**

Penentuan liabilitas imbalan kerja jangka panjang dipengaruhi oleh asumsi tertentu yang digunakan oleh aktuaris dalam menghitung jumlah tersebut. Asumsi-asumsi tersebut dijelaskan dalam Catatan 26 dan mencakup, antara lain, tingkat kenaikan gaji, dan tingkat diskonto yang ditentukan dengan mengacu pada imbal hasil pasar atas bunga obligasi korporasi berkualitas tinggi dalam mata uang yang sama dengan mata uang pembayaran imbalan dan memiliki jangka waktu yang mendekati estimasi jangka waktu liabilitas imbalan kerja jangka panjang tersebut. Hasil aktual yang berbeda dengan asumsi Grup dibukukan pada penghasilan komprehensif lain dan dengan demikian, berdampak pada jumlah penghasilan komprehensif lain yang diakui dan liabilitas yang tercatat pada periode-periode mendatang. Manajemen berkeyakinan bahwa asumsi-asumsi yang digunakan adalah tepat dan wajar, namun demikian, perbedaan signifikan pada hasil aktual, atau perubahan signifikan dalam asumsi-asumsi tersebut dapat berdampak signifikan pada jumlah liabilitas imbalan kerja jangka panjang.

The determination of the long-term employee benefits is dependent on the selection of certain assumptions used by actuary in calculating such amounts. Those assumptions are described in Note 26 and include, among others, salary growth rate, and discount rate which is determined after giving consideration to interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits are to be paid and have terms of maturity approximating the terms of the related long-term employee benefits liabilities. Actual results that differ from the Group's assumptions are charged to other comprehensive income and therefore, generally affect the recognized other comprehensive income and recorded obligation in such future periods. While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the amount of long-term employee benefits liabilities.

Pada tanggal 31 Desember 2024 dan 2023, liabilitas imbalan kerja jangka panjang masing-masing sebesar Rp 12.465.336.444 dan Rp 11.833.427.993 (Catatan 26).

As of December 31, 2024 and 2023, long-term employee benefits liability amounted to Rp 12,465,336,444 and Rp 11,833,427,993, respectively (Note 26).

**f. Aset Pajak Tangguhan**

**f. Deferred Tax Assets**

Aset pajak tangguhan diakui untuk semua perbedaan temporer antara nilai tercatat aset dan liabilitas pada laporan keuangan dengan dasar pengenaan pajak jika kemungkinan besar jumlah laba kena pajak akan memadai untuk pemanfaatan perbedaan temporer yang diakui.

Deferred tax assets are recognized for all temporary differences between the financial statements' carrying amounts of existing assets and liabilities and their respective taxes bases to the extent that it is probable that taxable profit will be available against which the temporary differences can be utilized.

Estimasi manajemen yang signifikan diperlukan untuk menentukan jumlah aset pajak tangguhan yang diakui berdasarkan kemungkinan waktu terealisasinya dan jumlah laba kena pajak pada masa mendatang serta strategi perencanaan pajak masa depan.

Significant management estimates are required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Pada tanggal 31 Desember 2024 dan 2023, saldo aset pajak tangguhan masing-masing sebesar Rp 4.641.525.229 dan Rp 4.188.976.087 (Catatan 27).

| Balance at the end of the year       | 2.362.644.532 |

As of December 31, 2024 and 2023, all trade accounts receivable from third parties were denominated in Rupiah.

Grup menerapkan pendekatan yang disederhanakan untuk menghitung cadangan kerugian kredit ekspektasian yang disyaratkan oleh PSAK No. 109, yang memperbolehkan penerapan cadangan kerugian kredit ekspektasian sepanjang umurnya untuk seluruh piutang usaha. Untuk mengukur cadangan kerugian ekspektasian tersebut, piutang usaha dikelompokkan berdasarkan karakteristik risiko kredit yang sejenis dan pola tunggakan atau gagal bayar.

Pada tanggal 31 Desember 2024 dan 2023, berdasarkan evaluasi manajemen terhadap kolektibilitas piutang usaha, manajemen berpendapat bahwa cadangan kerugian kredit ekspektasian memadai untuk menutup kemungkinan kerugian dari tidak tertagihnya piutang usaha tersebut.

Pada tanggal 31 Desember 2024 dan 2023, manajemen juga berpendapat bahwa tidak terdapat risiko terkonsentrasi secara signifikan atas piutang usaha kepada pihak ketiga.

Pada tanggal 31 Desember 2024 dan 2023, piutang usaha pihak ketiga digunakan sebagai jaminan atas utang bank jangka pendek (Catatan 12) dan utang bank jangka panjang (Catatan 17).

The Group applies the simplified approach to provide for expected credit losses prescribed by PSAK No. 109, which permits the use of the lifetime expected credit loss provision for all trade accounts receivable. To measure the expected credit losses, trade accounts receivable has been grouped based on shared credit risk characteristics and the days past due.

As of December 31, 2024 and 2023, based on management's evaluation of the collectability of the trade accounts receivable, management believes that the allowance for expected credit losses is adequate to cover possible losses from uncollectible trade accounts receivable.

As of December 31, 2024 and 2023, management believes that there is no significant concentration of credit risk in trade accounts receivable from third parties.

As of December 31, 2024 and 2023, trade accounts receivable from third parties were used as collateral on short-term bank loans (Note 12) and long-term bank loan (Note 17).

Nilai wajar instrumen keuangan yang diperdagangkan di pasar aktif adalah berdasarkan kuotasi harga pasar pada tanggal pelaporan. Pasar dianggap aktif apabila kuotasi harga tersedia sewaktu-waktu dan dapat diperoleh secara rutin dari bursa, pedagang efek atau perantara efek, badan penyedia jasa penentuan harga kelompok industri atau badan pengatur, dan harga tersebut mencerminkan transaksi pasar yang aktual dan rutin dalam suatu transaksi yang wajar. Kuotasi harga pasar yang digunakan untuk aset keuangan yang dimiliki oleh Grup adalah harga penawaran (*bid price*) terkini.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer or broker, industry group pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transaction on an arm's lengths basis. The quoted market price used for financial assets held by the Group is the current bid price.

Instrumen keuangan seperti ini termasuk dalam hirarki Level 1. Nilai wajar investasi pada portofolio efek diukur berdasarkan kuotasi harga pasar terakhir yang dipublikasikan pada tanggal 31 Desember 2024 dan 2023.

These instruments are included in Level 1. The fair value of marketable securities is measured based on quoted market price published as of December 31, 2024 and 2023.

Nilai wajar instrumen keuangan yang tidak diperdagangkan di pasar aktif ditentukan menggunakan teknik penilaian. Teknik penilaian ini memaksimalkan penggunaan data pasar yang dapat diobservasi yang tersedia dan sesedikit mungkin mengandalkan estimasi spesifik yang dibuat oleh entitas. Jika seluruh input signifikan yang dibutuhkan untuk menentukan nilai wajar dapat diobservasi, maka instrumen tersebut termasuk dalam hirarki Level 2. Nilai wajar utang bank, liabilitas sewa dan liabilitas pembiayaan konsumen diestimasi berdasarkan arus kas yang didiskontokan dengan suku bunga pasar yang dapat diobservasi.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity's specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. Specific valuation techniques used to value asset and liabilities at Level 2 are discounted cash flow analysis and market-comparable approach. The fair value of bank loan, lease liabilities and consumer financing liabilities are estimated based on discounted cash flows using observable market interest rate.

Informasi tentang pengukuran nilai wajar yang menggunakan input signifikan yang dapat diobservasi (Level 2) adalah sebagai berikut:

The information about fair value measurements using significant observable inputs (Level 2) are as follows:

| Keterangan/<br>Description | Teknik Penilaian/<br>Valuation Technique       | Input Signifikan yang Dapat<br>Diobservasi/Observable Input |
|----------------------------|------------------------------------------------|-------------------------------------------------------------|
| Bangunan/Building          | Pendekatan data pasar/<br>Market data approach | Harga per meter persegi/<br>Price per square meter          |

Pengukuran nilai wajar aset non keuangan termasuk dalam Level 2 hirarki nilai wajar sebagaimana dijelaskan pada Catatan 2.

The fair value measurement for non-financial assets falls within level 2 of the fair value hierarchy outlined in Note 2.

**30. Tujuan dan Kebijakan Manajemen Risiko Keuangan**

Aktivitas Grup terpengaruh berbagai risiko keuangan: risiko pasar (termasuk risiko mata uang asing dan risiko suku bunga), risiko kredit dan risiko likuiditas. Program manajemen risiko Grup secara keseluruhan difokuskan pada pasar keuangan yang tidak dapat diprediksi dan Grup berusaha untuk meminimalkan dampak yang berpotensi merugikan kinerja keuangan Grup.

Manajemen risiko merupakan tanggung jawab Direksi. Direksi bertugas menentukan prinsip dasar kebijakan manajemen risiko Grup secara keseluruhan serta kebijakan pada area tertentu seperti risiko mata uang asing, risiko bunga, risiko kredit dan risiko likuiditas.

**30. Financial Risk Management Objectives and Policies**

The Group's activities are exposed to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

Risk management is the responsibility of the Directors. The Directors have the responsibility to determine the basic principles of the Group's risk management as well as principles covering specific areas, such as foreign exchange risk, interest risk, credit risk and liquidity risk.

**Risiko Pasar**

**a. Risiko Mata Uang Asing**

Grup terpengaruh risiko nilai tukar mata uang asing yang timbul dari berbagai eksposur mata uang, terutama terhadap Dolar Amerika Serikat dan Ringgit Malaysia. Risiko nilai tukar mata uang asing timbul dari transaksi komersial yang akan diselesaikan di masa depan serta aset dan liabilitas yang diakui.

Manajemen telah menetapkan kebijakan yang mengharuskan entitas-entitas dalam Grup mengelola risiko nilai tukar mata uang asing terhadap mata uang fungsionalnya.

Pada tanggal 31 Desember 2024 dan 2023, jika mata uang Rupiah melemah/menguat sebesar 10% terhadap Dolar Amerika Serikat dan Ringgit Malaysia dengan variabel lain konstan, laba sebelum pajak untuk tahun berjalan akan lebih tinggi/rendah masing-masing sebesar Rp 388.771.217 dan Rp 304.990.656 terutama sebagai akibat dari keuntungan (kerugian) selisih kurs atas penjabaran kas dan setara kas dan utang usaha dalam Dolar Amerika Serikat dan Ringgit Malaysia.

**b. Risiko Suku Bunga**

Risiko suku bunga Perusahaan timbul dari pinjaman untuk tujuan modal kerja. Utang bank jangka pendek dan panjang dan liabilitas pembiayaan konsumen dengan suku bunga tetap yang dimiliki Perusahaan dicatat pada biaya perolehan diamortisasi. Untuk itu, pinjaman tersebut tidak termasuk dalam risiko suku bunga sebagaimana didefinisikan dalam PSAK No. 107.

Pada tanggal 31 Desember 2024 dan 2023, pinjaman Perusahaan pada suku bunga tetap didenominasikan dalam Rupiah.

**Risiko Kredit**

Risiko kredit dikelola berdasarkan kelompok, kecuali risiko kredit sehubungan dengan saldo piutang. Risiko kredit timbul dari bank dan setara kas dan risiko kredit yang timbul dari pelanggan, termasuk piutang yang belum dibayar. Bagian pengendalian risiko menilai kualitas kredit pelanggan dengan mempertimbangkan posisi keuangan, pengalaman masa lampau dan faktor lainnya.

**Market Risk**

**a. Foreign Currency Risk**

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United States Dollar and Malaysian Ringgit. Foreign exchange risk arises from future settlement of commercial transactions and recognized assets and liabilities.

Management has established a policy that requires entities in the Group to manage the risk of foreign currency exchange against their functional currency.

As of December 31, 2024 and 2023, if the Rupiah currency had weakened/strengthened by 10% against the United States Dollar and Malaysian Ringgit with all other variables held constant, profit before tax for the years would have been higher/lower by Rp 388,771,217 and Rp 304,990,656, respectively, primarily as a result of gains (losses) on foreign exchange differences on the translation of cash and cash equivalents and trade accounts payable denominated in United States Dollars and Malaysian Ringgit.

**b. Interest Rate Risk**

The Company's interest rate risk arises from loans for working capital. Short-term and long-term bank loans and consumer financing liabilities with fixed interest rates are carried at amortized cost. Therefore, these loans are not subject to interest rate risk as defined in PSAK No. 107.

As of December 31, 2024 and 2023, the Company's loans at fixed rate were denominated in Rupiah.

**Credit Risk**

Credit risk is managed by group, except for credit risk related to outstanding receivables. Credit risk arises from cash in banks and cash equivalents and credit risk arising from customers, including unpaid receivables. The risk control department assesses the credit quality of customers by considering financial position, past experience and other factors.

***Risiko Likuiditas***

Risiko likuiditas adalah risiko kerugian yang timbul karena Grup tidak memiliki arus kas yang cukup untuk memenuhi liabilitasnya.

***Liquidity Risk***

Liquidity risk is a risk arising when the cash flow position of the Group is not sufficient to cover the liabilities which become due.

Dalam pengelolaan risiko likuiditas, manajemen memantau dan menjaga jumlah kas dan setara kas yang dianggap memadai untuk membiayai operasional Grup dan untuk mengatasi dampak fluktuasi arus kas.

In managing the liquidity risk, management monitors and maintains a level of cash and cash equivalents deemed adequate to finance the Group's operations and to mitigate the effects of fluctuation in cash flows.

Manajemen juga melakukan evaluasi berkala atas proyeksi arus kas dan arus kas aktual, termasuk jadwal jatuh tempo utang, dan terus-menerus melakukan penelaahan pasar keuangan untuk mendapatkan sumber pendanaan yang optimal.

Management also regularly evaluates the projected and actual cash flows, including loan maturity profiles, and continuously assesses conditions in the financial markets for opportunities to obtain optimal funding sources.
